

# Fast-tracking development and introduction of paediatric formulations:

Dr. Gottfried Hirnschall

Director  
WHO HIV Department, Geneva  
July 16<sup>th</sup> 2016

# Paediatric coverage still lags behind

**The treatment GAP continues to exist**

# 2015 WHO ARV Consolidated Guidelines

Test  
Earlier  
and  
closer

Treat  
earlier  
and  
better

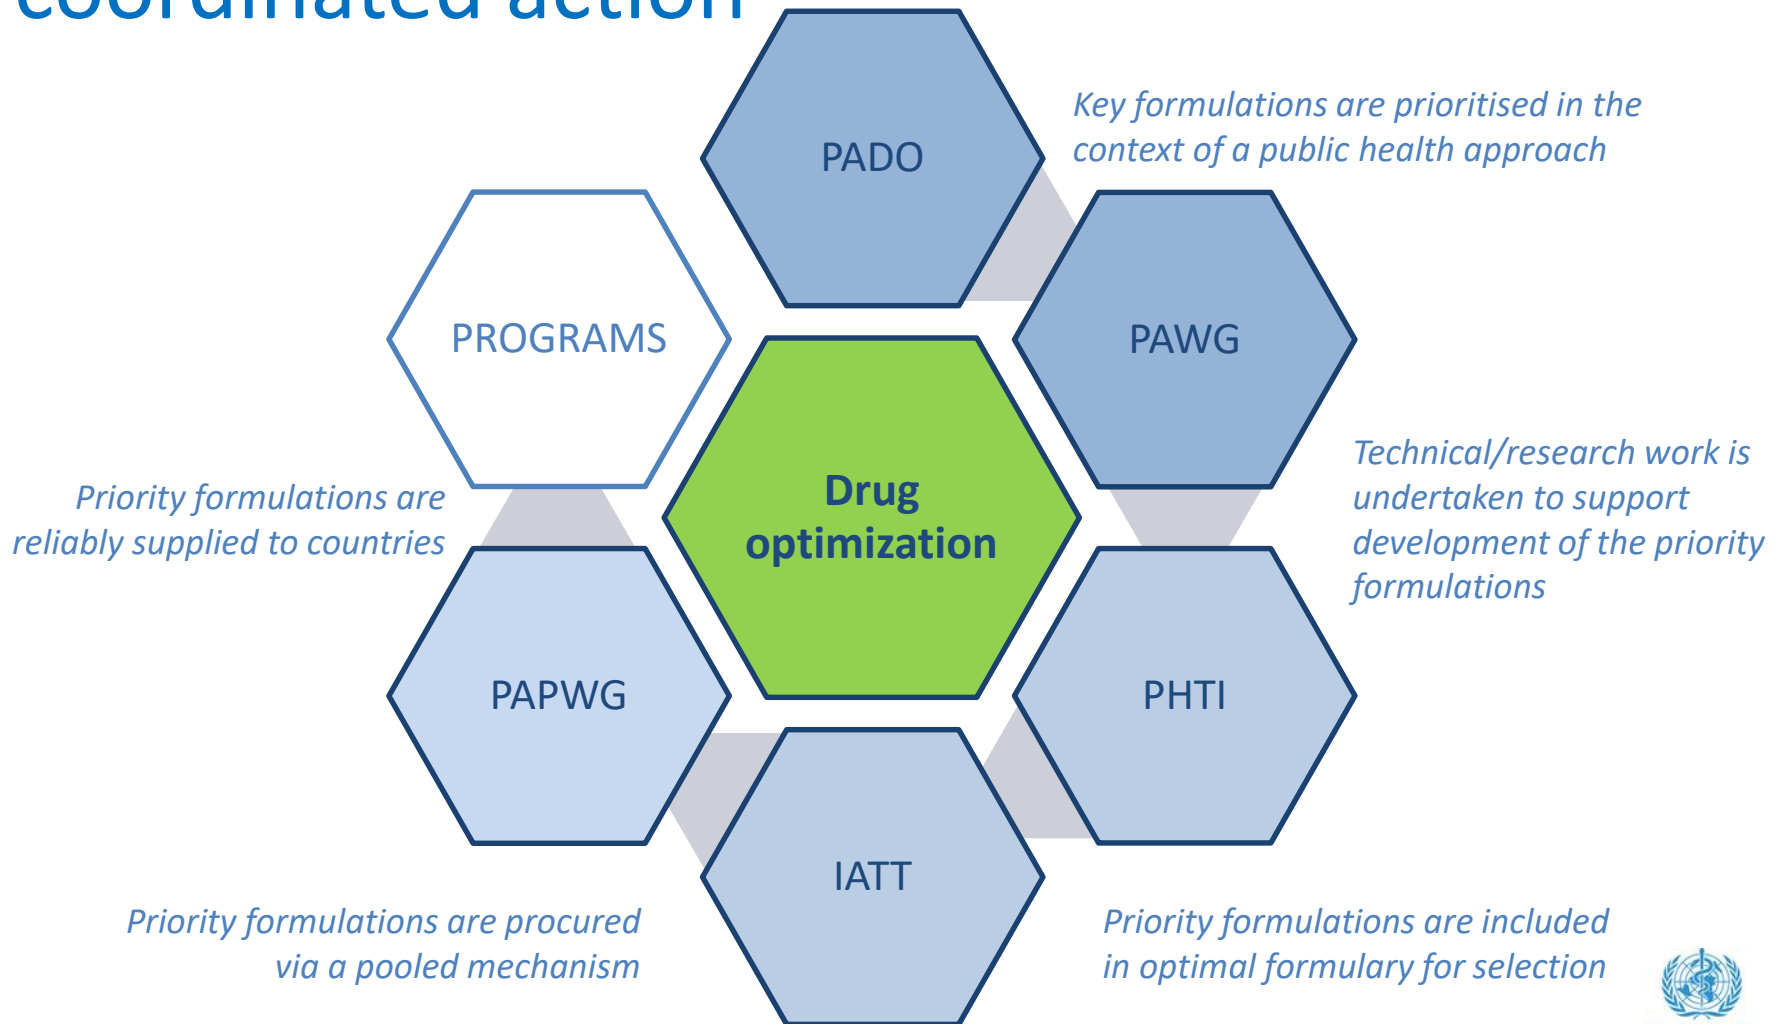

Tailor  
service  
delivery

Critical tool to reach the Treatment targets

# Developing and delivering paediatric formulations through collaborative and coordinated action

Treat  
earlier  
and better

But we need to be  
**FASTER,**  
**MORE EFFICIENT**  
and find **MORE SUSTAINABLE**  
ways to do this in the future!!

# Window of opportunity to trigger change

- **WHA 69** adopted a resolution on paediatric meds
- **Philanthropies** demonstrated interest in technology platforms and accelerating development of paediatric formulations across disease areas
- The **Vatican** has convened a high level dialogue on paediatric HIV and called for closer collaboration between industry and stakeholders
- **HLM** has catalyzed attention on the lack of formulations for children and calling for urgent action
- **“Be Free” framework** to promote closer collaboration between stakeholder

# Have a good meeting!
