

## REPORT BACK FROM THE PAEDIATRICS WEEK

Organized by the International AIDS Society's (IAS's) Industry Liaison Forum (ILF) and the Collaborative Initiative for Paediatric HIV Education and Research (CIPHER)

Thursday, 15 December 2016 – 09:00-10:30 EST / 15:00-16:30 CET / 19:30-21:00 IST

**Webinar (please register [here](#))**

There are over 1.8 million children living with HIV, but only half of them are receiving the treatment they need. The WHO and partners are organizing a series of events in Geneva during the Paediatrics Week on drug optimization, from 5-9 December 2016. The events aim to respond to the four key pillars of paediatric treatment optimization:

1. Optimizing HIV treatment options and identifying priority products for children
2. Developing priority paediatric products
3. Optimizing selection and procurement of existing paediatric products
4. Enabling effective introduction, procurement and supply of paediatric products.

The ILF and CIPHER will hold a webinar to disseminate, beyond stakeholders directly involved, the main outcomes of this paediatrics week.

15:00 CET 5 minutes	<b>IAS – Welcome and introduction</b> Sébastien Morin (IAS)
15:05 CET 15 minutes	<b>WHO – Guidelines uptake and PADO priorities</b> Martina Penazzato (WHO)
15:20 CET 10 minutes	<b>PHTI – Update on PHTI projects</b> Fernando Pascual (MPP)
15:30 CET 10 minutes	<b>IATT – Update on IATT formulary + uptake</b> Nandita Sugandhi (CHAI)
15:40 CET 10 minutes	<b>CTA – Updates on fast-tracking development and introduction of paediatric formulations</b> George Siberry (PEPFAR)
15:50 CET 10 minutes	<b>PAPWG – Update on PAPWG + expansion to adult ARVs</b> Wesley Kreft (PFSCM)
16:00 CET 25 minutes	<b>Q&amp;A</b> (from the chat) All participants (moderated by Sébastien Morin, IAS)
16:25 CET 5 minutes	<b>IAS – Closing remarks</b> Sébastien Morin (IAS)
