## REPORT BACK FROM THE PAEDIATRICS WEEK

Organized by the International AIDS Society's (IAS's) Industry Liaison Forum (ILF) and the Collaborative Initiative for Paediatric HIV Education and Research (CIPHER)

Thursday, 15 December 2016 – 09:00-10:30 EST / 15:00-16:30 CET / 19:30-21:00 IST

Webinar (please register [here](#))

There are over 1.8 million children living with HIV, but only half of them are receiving the treatment they need. The WHO and partners are organizing a series of events in Geneva during the Paediatrics Week on drug optimization, from 5-9 December 2016. The events aim to respond to the four key pillars of paediatric treatment optimization:

1. Optimizing HIV treatment options and identifying priority products for children
2. Developing priority paediatric products
3. Optimizing selection and procurement of existing paediatric products
4. Enabling effective introduction, procurement and supply of paediatric products.

The ILF and CIPHER will hold a webinar to disseminate, beyond stakeholders directly involved, the main outcomes of this paediatrics week.

15:00 CET 5 minutes	<b>IAS – Welcome and introduction</b> Sébastien Morin (IAS)
15:05 CET 15 minutes	<b>WHO – Guidelines uptake and PADO priorities</b> Martina Penazzato (WHO)
15:20 CET 10 minutes	<b>PHTI – Update on PHTI projects</b> Fernando Pascual (MPP)
15:30 CET 10 minutes	<b>IATT – Update on IATT formulary + uptake</b> Nandita Sugandhi (CHAI)
15:40 CET 10 minutes	<b>CTA – Updates on fast-tracking development and introduction of paediatric formulations</b> George Siberry (PEPFAR)
15:50 CET 10 minutes	<b>PAPWG – Update on PAPWG + expansion to adult ARVs</b> Wesley Kreft (PFSCM)
16:00 CET 25 minutes	<b>Q&amp;A</b> (from the chat) All participants (moderated by Sébastien Morin, IAS)
16:25 CET 5 minutes	<b>IAS – Closing remarks</b> Sébastien Morin (IAS)

# Today's meeting

- Ensure timely updates from **PADO 3** and **PAWG** to ARV manufacturers
- Facilitate the delivery of industry feedback to these key paediatric ARV initiatives
- Convened by the International AIDS Society ILF and CIPHER, with key contributions from the WHO

World Health  
Organization

# Paediatric HIV at the IAS

## **Industry Liaison Forum (ILF)**

- Fast-track the development of paediatric HIV medicines (focusing on the most needed paediatric ARV formulations) through incentivising their development.

## **Collaborative Initiative for Paediatric HIV Education and Research (CIPHER)**

- Promote and invest in targeted research to address priority knowledge gaps in paediatric HIV
- Convene stakeholders and establish collaboration mechanisms to strengthen communication, knowledge transfer and exchange among paediatric HIV cohorts
- Support evidence-informed clinical, policy and programmatic decision making through advocacy and outreach.

# Global Accelerator for Paediatric Formulations

- Led by Global Pediatric Antiretroviral Commitment-to-Action (CTA) partners

- New collaborative framework to fast track development of paediatric drug formulations (HIV as a starting point, but also viral hepatitis and tuberculosis)
- Includes a set of recommendations for regulatory agencies and industry, as well as an innovative financing mechanism
- Key milestones in 2016 include a series of expert meetings (reports available [here](#) and [here](#)), which led to the development of an action plan in three stages (presented during the Geneva Paediatric HIV Week in December 2016)
- The action plan is being reviewed for endorsement by CTA partners; once validated, the plan will be shared with the broader group of stakeholders and implementation of the action plan will start...

# Today's agenda

16:00 CET

5 minutes

## Welcome and introduction

Sébastien Morin (IAS)

16:05 CET

25 minutes

## PADO 3 priorities

Martina Penazzato (WHO)

Philippa Easterbrook (WHO)

16:30 CET

10 minutes

## PAWG plans

Martina Penazzato (WHO)

16:40 CET

15 minutes

## Q&A (from the chat)

Facilitated by Sébastien Morin (IAS)

16:55 CET

5 minutes

## Closing remarks

Sébastien Morin (IAS)

Historically focused on paediatric HIV drugs; now looking at paediatric hepatitis and tuberculosis drugs as well!

# Housekeeping announcements

- Questions will be received through the WebEx chat function (alternatively emails to [sebastien.morin@iasociety.org](mailto:sebastien.morin@iasociety.org))
- Only speakers' audio will be turned on; other participants will be muted
- The meeting is being recorded; the recording will be posted on the ILF website ([www.iasociety.org/ilf](http://www.iasociety.org/ilf))
