**Gilles Van Cutsem,**  
Doctors Without Borders,  
South Africa

Gilles Van Cutsem is a humanitarian medical doctor and epidemiologist who currently serves as a senior HIV & TB Adviser and International AIDS Working Group Lead for Médecins Sans Frontières's Southern African Medical Unit and as an Honorary Research Associate at the Centre for Infectious Disease Epidemiology and Research of the University of Cape Town. His work with Doctors without Borders (MSF) in sub-Saharan Africa spans over two decades, most of it caring for people with HIV and TB in South Africa, but also coordinating various other emergency responses. He has also supported various MSF activities on COVID-19 in South Africa. He holds a Medical Doctor degree from the University of Louvain, a Diploma of Tropical Medicine from the Institute for Tropical Medicine in Antwerp and a Masters in Public Health and Epidemiology from the University of Cape Town.

**James Malar**, Stop TB  
Partnership, Switzerland

James Malar works for the UN hosted Stop TB Partnership in Geneva. He works in the Country and Community Support for Impact Team where he leads on human rights and community engagement.

**Cuc H. Tran**, Centers for Disease Control and Prevention (CDC), USA

Dr Cuc H. Tran, Epidemiologist at Division of Global HIV & TB, Centers for Disease Control and Prevention (CDC), United States. She has over ten years of public health training and experience in tuberculosis, influenza, rabies, Zika, and STIs. Over the course of her career, she has obtained a total of \$2.2 million of funding and worked in seven countries. Currently, she is the point of contact for TB activities in Eswatini and Vietnam. Her work also focuses on TB infection among migrants and TB preventative therapy among persons living with HIV.

**Andrew Medina-Marino,**  
Desmond Tutu Health  
Foundation, South Africa

Dr. Medina-Marino is a public health researcher, with a particular interest and growing research portfolio focused on Men's Health in the context of TB, HIV and mental health. He received his PhD in from the California Institute of Technology and is currently completing his MPH in Epidemiology at the University of Cape Town. He is Head of Research for the Foundation for Professional Development, Senior Investigator and co-Lead of the Men's Health Division at the Desmond Tutu Health Foundation at the University of Cape Town, and an Adjunct Associate Professor in the Department of Psychiatry in the Perelman School of Medicine at University of Pennsylvania. Prior to moving to South Africa, Dr. Medina-Marino was an Epidemic Intelligence Service Officer for U.S. CDC.

**Maurine Murenga, TB Women, Kenya**

Maurine Murenga is a passionate advocate for the health, development and human rights of women and girls living with HIV and affected by TB from Kenya. Driven by her lived experience, Maurine founded the Lean on Me Foundation. Maurine is a former Board Member of the Communities Delegation on the Board of the Global Fund, represents communities on the TB Stakeholders Association of TB Alliance and chairs the Steering Committee of Women 4 Global Fund. More recently, Maurine co-founded TBWomen, the global network of women in all their diversity who are affected by TB and are working toward a gender transformative TB response.
